### \$1.75 to Cincinnati Sunday.

The city council will meet next Monday night.

Call at the store of Mount & Elkin or the Central Record office and get a catalogue of the great Lancaster Fair.

Wheat harvest is on in full blast. Some crops are good and others almost a complete failure, making the average about as usual.

The Ladies Aid Society will meet with Mrs Emma Kauffman Saturday afternoon at 2:30 o'clock. It will be an important meeting.

A severe rain and wind storm swept over town Sunday afternoon. A tree in the little park was broken down and other damage done in and near town.

Very few fish have been caught at Lake Placid. The water is so clear they will not bite. As Dave Ross says, the water is "as clear as a Christian."

The L & N will run another excursion to Cincinnati next Sunday, train leaving Lancaster at 5 A. M. Fare \$1.75 for the round trip. This will give all day in the Queen City.

Begin getting your premises in shape for the fair. Many visitors will be here, and there is great room for improvement on some yards, fences, pavements, etc. Get busy and be decent.

The Crab Orchard fair catalogue is out, the work of the Danville News office. When it comes to turning out first class, high grade work, the News office is always there with the goods.

The dust has been worse this summer than for many years. The soft stone placed on the streets grinds into powder very quickly, causing a great nuisance. Hard stone seems to be a thing of the past in this section, as it is impossible to get it for the roads.

### Sale of Town Property.

Mr J Fleece Robinson sold his handsome brick residence, in which he now resides, on Lexington street, to Mr A H Bastia at \$5,500. There are five acres of land with the place, and it is one of the handsomest homes in the city.

### Not in Lincoln.

"Raggedy" Dave Ross wants the people to know that he is a candidate for sheriff of Garrard county, and not Lincoln, as the Crab Orchard fair catalogue would have him. His many friends say he is not only a candidate, but will win, too.

### Good Sales.

At the sales of the Sale and Ballard property, near Paint Lick, the home place was sold to W C Fish at \$72.00 per acre, the Spilman place sold at \$53.50 per acre, the farm on the Berea road sold at \$53.50 per acre, and the mountain farm of eighty-five acres sold in a bulk for \$300.

### Hemp Damaged.

Last Sunday's storm played havoc with about seventy five acres of hemp belonging to Mr J Y Robinson, near Gilberts Creek. The hail beat it down so badly that the entire crop will be a loss.

### Opening Ball at Estill.

The opening ball at Estill Springs will take place Friday evening, the 25th. It will be in the nature of a gem man, and will be led by Mr and Mrs Thomas Pickles, of Richmond. A splendid orchestra has been engaged for the season and is now at the Springs.

### A Good Idea.

Excursion steamboats on the Ohio River are new equipped with steel cages to lock up drunken and improper characters until a town is reached. As conductors in this State are now empowered to make arrests it wouldn't be a bad idea to equip each baggage car with a cage for the same purpose.

### Double Wedding.

The Lexington Leader tells of the marriage, Saturday, of Mr Ernest W Bourne and Miss Ethel Wheeler and Thos. Vaughan and Miss Sarah Early. They were married in Winchester, an elopement having been planned some days before. Mr Bourne is a son of Mr John Bourne, of this county, the other parties being well-known and popular residents of Lexington.

### Christian Endeavor Union.

The Garrard County Union, of the Christian Endeavor will meet in an annual convention at Walnut, near Paint Lick, Friday, July 12th, beginning promptly at 9:30 A. M. Good speakers will be present and an interesting program given. All interested in Christian Endeavor work are invited to be present. Program will be printed in next issue of The Central Record.

### Selecting a Plan.

The committee appointed to select a plan and award contract for building Lancaster's new hotel, has been very busy looking over those submitted, and have about decided upon the one to use. Final contracts will be signed as a few minor details are arranged and all the subscription funds paid in. A picture of the plan most liked is on exhibition in offices of the Garrard Bank & Trust Co. It's a beauty, too.

### Nothing Remarkable.

A Kentucky editor says: A young man was seen recently with two heads on his shoulders. Both were fully developed with rather handsome features. The young man is not a museum freak, as might be supposed. The other head was the property of his sweet heart, and probably would not have been seen in that deformed position had it not been for the young lady's neglect to pull down the blinds.

### Created Much Laughter.

The cartoon of Judge Hughes, who edited The Record last week, created much laughter. The Record is the only country paper in the state using cartoons of local people. It is quite expensive, but a winning feature for the paper. The pictures are drawn by our good friend, Mr Clay Sutton, whose skill has attracted much favorable comment from those competent to criticize his work. It is our intention to use more of the drawings in the future.

### Crop Again On Increase.

For some time, Lancaster has been bothered with very few loafers, but, we regret to say, the crop is on the increase. It is nothing uncommon to see a gang of six or eight able-bodied men sitting in a group whittling, smoking, and discussing the private affairs of people generally. If a man has any business at all, it's hard to understand how he attends to it and spends most of his time gossiping with other loafers. Go to work, and your nose will not be poked into other people's affairs so often.

### McMurtry.

In the absence of the editor, last week, the death of Mrs McMurtry, of Louisville, was overlooked. She died at the home of her son, Dr Lewis McMurtry, in that city, on the 15th, the funeral taking place in Danville the following day. Mrs McMurtry was born in Lancaster and resided here many years. She moved to Danville, thence to Louisville. She had reached the age of ninety-six, and was blessed with good health most of her years. She is well remembered by older citizens of Lancaster, and beloved by all who knew her. She was a woman of rare intellect and her kindness made a friend of all with whom she was acquainted. Her two sons, Dr Lewis McMurtry and Mr Leslie McMurtry have a legion of friends in this section of the state who extend deepest sympathy to them in their great bereavement. Dr McMurtry is one of the leading and most prominent physicians in the state, and his remarkable skill and success have won for him a practice second to none in this section of the country. As stated above, there are many of Lancaster's older citizens, those who have spent their lives here, who deeply deplore the passing away of this beloved and godly lady.

### Ross-Stephens.

Married, in Cincinnati, June 16th, Miss Susie Ross, of Lancaster, and Mr W E Stephens, of Chicago, Ills, Rev W F Gowdy performing the ceremony. We wish them success through life, and may their pathway be strewn with roses. \* \* \*

Rev C C Brown filled the pulpit of the Richmond Presbyterian church Sunday.

### Baptizing Sunday.

Rev Mr Shouse, pastor of the Fork church, will preach at the Lancaster Baptist church next Sunday morning, at the usual hour. In the afternoon he will baptize the members just received at the protracted meeting.

### Ices and Cakes.

The Daughters of the Confederacy will serve ices and cakes, in the Storm es store room on Danville street, next Saturday, the 29th, beginning at two o'clock. Fifteen cents per plate, for ices and cake. Everybody invited to come and be refreshed.

### A Fine Meeting.

The meeting conducted at the Baptist church came to a close Sunday night, and was one of the most successful ever conducted in Lancaster. There were twenty-one additions to the membership. The sermons by Rev Mr Argabrite, state evangelist, were greatly enjoyed and did much good.

### Skating Rink.

Mr W R McRoberts opened the new skating rink Wednesday evening, and a large crowd of young and older folk enjoyed the innocent and health-giving amusement. The Sweeney store room is being used, and affords ample room for good skating. New skates have been purchased, and they are of the very best make. A good band furnishes music, and everything for the comfort of patrons is at hand. Electric fans are being installed, which will make the room very cool and pleasant. The admission fee is only ten cents. If you wish to enjoy an evening, go to the rink. The doors are opened on Monday, Wednesday and Friday nights, and on Saturday afternoons.

### Must Advance Prices.

As all material used in printing offices has advanced at least one third in cost, it is absolutely necessary that the printing offices must advance the prices received for work. In blank newspaper alone there has, in six months, been an advance of about fifty per cent, consequently publishers can not send out their publications at the old prices, and, unless the paper mills come down, you may look for a sharp advance in the subscription prices. In job stock, the cost of blank material has advanced so much that printers are barely making any profit at all. Our prices will remain the same for a month or so longer, and we would advise that you stock up on job work and pay your subscription for a year or so in advance, thereby saving money.

### Profitable and Enjoyable.

The most delightful meeting the Kentucky editors have ever held was that at Estill Springs last week. It was not only pleasant but very profitable to the quill drivers, who talked shop, exchanged ideas and succeeded in putting on foot several moves which will bring good results to them and, of course, to the patrons of their offices. The party was composed of possibly one hundred editors and seventy-five ladies. Messrs Riddle Bro's, proprietors of the famous resort, put forth every effort to bring comfort and happiness to the party, and they certainly succeeded. Estill Springs has long been one of the most popular resorts in the South, and the delightful and beneficial waters are known far and wide. The buildings are complete in every detail, and the table unsurpassed in excellence. The rates are very reasonable, and any one needing rest and recreation will make no mistake in spending a time there. Most all of every day was occupied by the editors in discussing matters of interest to the craft, but there were many euchre parties, balls, athletic sports and other entertainments which made the time whirl by like a dream. The gem man, one of the principal events of the social end of the press meeting, was gracefully led by Mr Vernon Richardson, of the Danville News, and Miss Katherine Dowling, of Lawrenceburg.

### Should Run All Night

The City Council met Monday night to consider bids for a ten year franchise for an electric light service in Lancaster. There were only two bidders, Mr Alex Walker, the present holder, and a Danville firm. The most important feature of the question is an all night service, and, as this will cost possibly \$450 to \$500 more per year, the Council is still considering the matter. As matters stand, the town is in debt about its limit, and this is causing the council to hesitate. The importance of an all-night service is plain to every one, and, if the council can find any way on earth to get it, this should be done. Lancaster is the only town on the map running under the old hay seed idea of half night lighting. The many advantages, to say nothing of the greater safety to life, brought by good, all night service, are too apparent to need comment. The citizens of the town should take hold of the matter and assist the council in solving the problem. If the franchise is granted, it means that for ten years, Lancaster must lag at the tail-end of the procession, and still be called the reube town of Central Kentucky. The present council is composed of conservative business men, and they are very careful to keep within the limit, but if all hands will put a shoulder to the wheel, we believe this all-important matter can be solved and the people given an all-night service.

W V Gastineau bought of John Cress a two year old filly for \$145.

### Court Day.

An unusually large crowd came in to county court Monday, and business with the merchants was brisk. A few cattle were offered but none sold. Plug horses sold at from \$36 to \$84. A heavy rain came up at noon and the crowd was out early. As has been the case since officers Beazley and Herron took charge, there was no disorder or drunkenness. If people who resided here twenty years ago should return and see our orderly, sober court day crowds they would marvel at the change, indeed.

### Notice to Tax Payers.

Taxes due state and county are now due. This includes the dog tax. Please call and settle same at once.  
6-11-07 C A Arnold, S. G. C.

### Stenography and Typewriting.

Miss Fannie T Wilson is located in the stenographer's room at the Garrard Bank and Trust Co's, officers, where she can be found during business hours prepared to do stenographic work and typewriting. All work attended to promptly and satisfactory.

Prof Lippard is receiving a number of new students in the Richmond Business College, which is doing a good work. Business men, parents and students unite in recommending the work as most thorough, honest and a safe school for young people. No humbug tactics. No robbing students of their money. Students can pay in monthly payments. Graduates placed into positions.

### Special Bargains.

For a short time we offer for sale one of the best farms in Garrard county, 9 miles from Lancaster, on a good pike. It contains 280 acres of fresh fertile land, worth much more than over-worked land, just a young horse is worth more than an old livery horse. Only 75 acres in corn and wheat, 40 acres in timothy meadow, leaving 160 acres in blue grass sod, most of which has not been ploughed for 15 years and which would rent at \$30 per acre for tobacco. It is well fenced, has 5 never failing springs, 2 good orchards, tobacco barn, stock barn, 2 tenant houses and one of the best constructed residences in the county. A sure money maker.

### Such A Pretty Girl.

She's not particularly bright.  
At school they called her dull.  
A boy in such a case, would hem her.  
The thickness of her skull.  
But now, when young men look at her,  
Their brains are in a whirl.  
She's no Minerva—what of that?  
She's such a pretty girl!  
She hasn't very much to say.  
And doesn't say it well.  
And yet, men readily admit,  
She waves a wondrous spell.  
No man denies her facile charm,  
Unless he is a churl.  
She's slow and stupid—what of that?  
She's such a pretty girl!
